This file and the financial information and forecast information are based on information obtained by the company from internal and external sources. The actual operating results and financial conditions of the company may differ from these predictive sets of information due to various uncontrollable factors.

The viewpoints in this file reflects the company's opinion on the future by the current date. If there are any changes or adjustment in the future, the company is not responsible for notifying the reader or updating the content.

Agenda

- **Company Profile and Overview**
- **AIoT Revolution**
- **Financial information**
- **Q & A**

Company Profile and Overview

Founded	2005
Capital	USD \$25.4M (2018)
Revenue	USD \$262M (2018)
Patents	80
Production	600K / Monthly (2019)

14 Years of Innodisk

innodisk

2005-2007

Established a Strong Presence in the Industrial and Embedded Market

2009

iSMART

- Innodisk Launches InnoRobust™ for Military Applications
- iSMART – First SSD Monitoring Software

2008

Innodisk Introduces the SATADOM Series

2010

Innodisk Launches EverGreen (L²) Series

2011

The First Miniature PCIe Storage Device in the Industry

2012

- First Enterprise MLC Technology – iSLC
- SATADOM™ Qualified for Intel® Romely Platform

2013

- Launched DRAM Conformal Coating
- First BGA Package Micro SSD – Nano SSD

2014

- Certified Storage Solutions for In-Vehicle Computing (e-Mark)

14 Years of Innodisk

innodisk

2016

Launched First DDR4 VLP and Entered into Collaboration with Top Surveillance Customers in China

2018

- Anti-Sulfuration for all DDR4 DRAM Modules
- Named World's Top Industrial SSD provider by Gartner Report
- Top 35 International Taiwanese Brand According to InterBrand Ranking
- Top 10 DRAM Module Suppliers According to TrendForce Ranking

2015

- Launched First DDR4 Sorting WT Solution
- Innodisk SATADOM is Chosen as New Boot-up Device for EVO:RAIL by VMWare®

2017

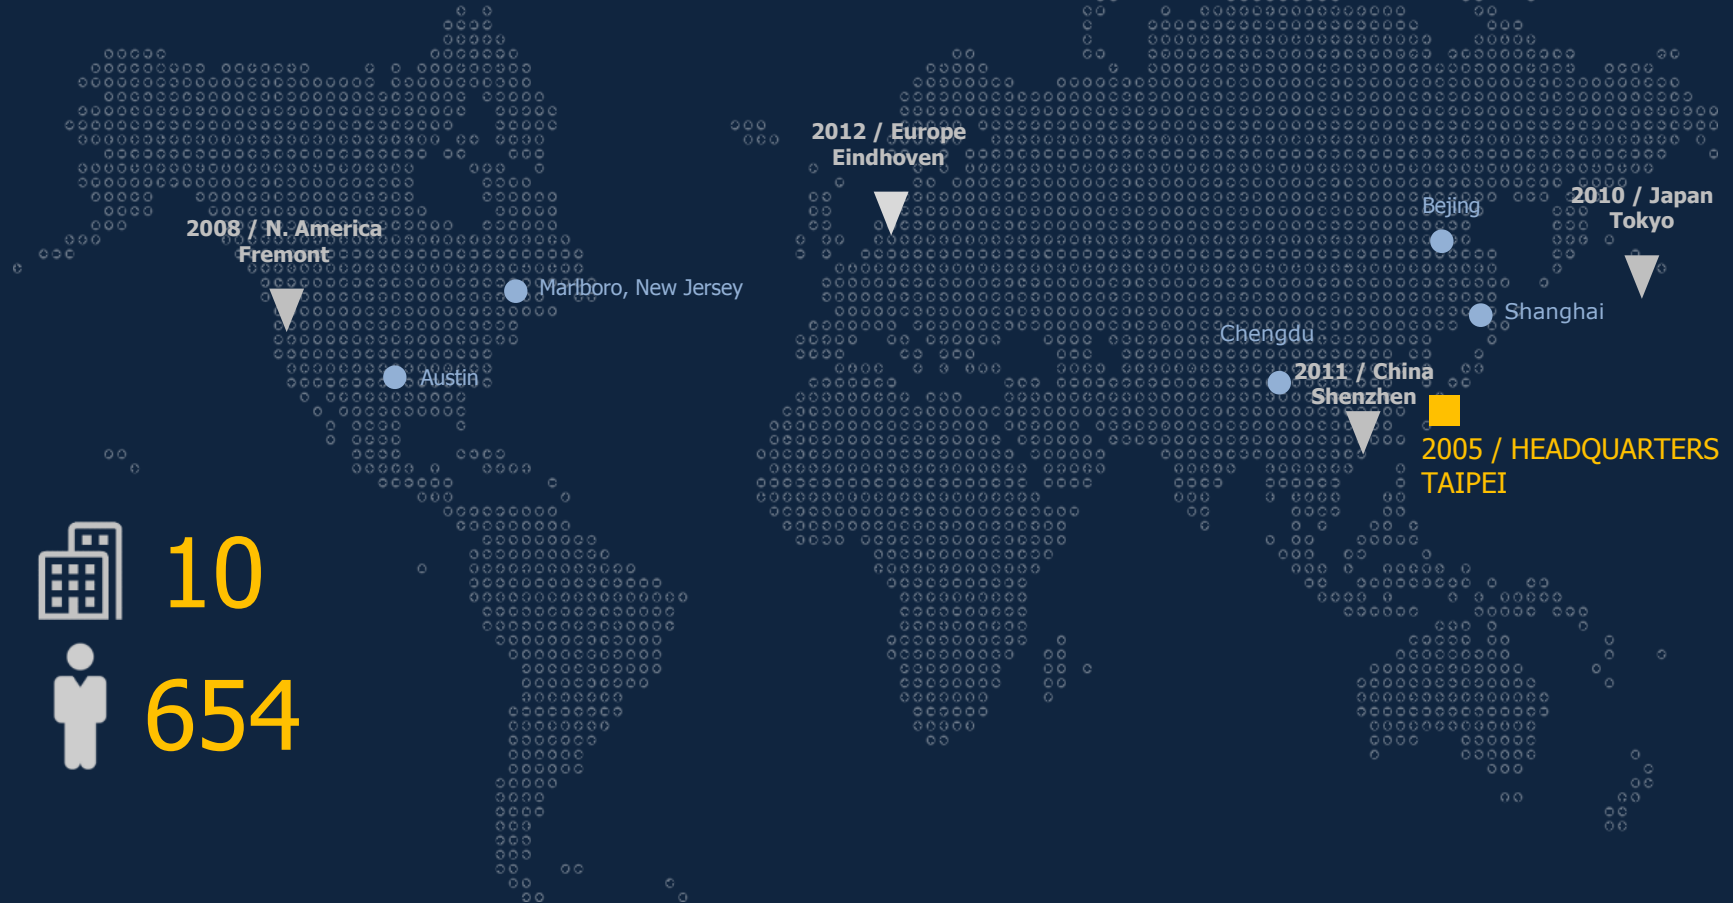

- World's Smallest Embedded RAID 1 Solution
- iCAP™ Cloud-based Storage Management
- First DDR4 2666 Embedded Series

2019

- Unveiled the InnoAGE™ SSD: the World's First SSD with Native Microsoft Azure Sphere™ Inside
- Launched DRAM 32GB & 3200 Series

Uncompromising Embedded Solutions

Embedded systems form an incredibly important but easily overlooked part of our daily lives. Every embedded system is dedicated to a specific task that vary greatly in size and complexity – it can be anything from something as simple as turning a street light on and off, to operating something as advanced as factory automation.

The factors that generally link these different applications together are rugged operating conditions and the need for compactness. But the unique challenges faced by every application are much more numerous, making customization the most crucial factor for the embedded system operator.

DRAM –Industrial Memory Modules

innodisk

Embedded Memory

SODIMM

UDIMM

Very Low-Profile

Server Memory

ECC DIMM

Mini DIMM

RDIMM

Wide Temperature Memory
